

Edward Koltonowski

Mr. Koltonowski is currently the President of Gibson Traffic Consultants, Inc. Previous to his time at GTC, he conducted research for the Innovations Unit of the Washington State Transportation Center while simultaneously completing his graduate degree. Before immigrating to America (permanent resident), he was an officer in the British Corps of Engineers and held the rank of Captain. Mr. Koltonowski designed and constructed military construction projects, which enhanced the local community and included several road and bridge improvements. Mr. Koltonowski has recently focused on working with several public agencies across Washington State, including Indian Tribes, on transportation and traffic projects ranging from access disputes, circulations studies and large commercial developments.

Mr. Koltonowski focuses on project management, including client contact, budgeting and scoping and progress of analysis. Mr. Koltonowski is able to present information to stakeholders with a wide range of technical knowledge, including review staff, councils and citizens. He has also served as an expert witness at legal proceedings and quasi-judicial hearings.
